List of BDE error codes

Error code - hex (decimal)	Error description
$0000 (0)	Successful completion
$0021 (33)	System Error
$0022 (34)	Object of Interest Not Found
$0023 (35)	Physical Data Corruption
$0024 (36)	I/O Related Error
$0025 (37)	Resource or Limit Error
$0026 (38)	Data Integrity Violation
$0027 (39)	Invalid Request
$0028 (40)	Lock Violation
$0029 (41)	Access/Security Violation
$002A (42)	Invalid Context
$002B (43)	OS Error
$002C (44)	Network Error
$002D (45)	Optional Parameter
$002E (46)	Query Processor
$002F (47)	Version Mismatch
$0030 (48)	Capability Not Supported
$0031 (49)	System Configuration Error
$0032 (50)	Warning
$0033 (51)	Miscellaneous
$0034 (52)	Compatibility Error
$003E (62)	Driver Specific Error
$003F (63)	Internal Symbol
$2101 (8449)	Cannot open a system file
$2102 (8450)	I/O error on a system file
$2103 (8451)	Data structure corruption
$2104 (8452)	Cannot find Engine configuration file
$2105 (8453)	Cannot write to Engine configuration file
$2106 (8454)	Cannot initialize with different configuration file
$2107 (8455)	System has been illegally re-entered
$2108 (8456)	Cannot locate IDAPI32 .DLL
$2109 (8457)	Cannot load IDAPI32 .DLL
$210A (8458)	Cannot load an IDAPI service library

$210B (8459)	Cannot create or open temporary file
$2201 (8705)	At beginning of table
$2202 (8706)	At end of table
$2203 (8707)	Record moved because key value changed
$2204 (8708)	Record/Key deleted
$2205 (8709)	No current record
$2206 (8710)	Could not find record
$2207 (8711)	End of BLOB
$2208 (8712)	Could not find object
$2209 (8713)	Could not find family member
$220A (8714)	BLOB file is missing
$220B (8715)	Could not find language driver
$2301 (8961)	Corrupt table/index header
$2302 (8962)	Corrupt file - other than header
$2303 (8963)	Corrupt Memo/BLOB file
$2305 (8965)	Corrupt index
$2306 (8966)	Corrupt lock file
$2307 (8967)	Corrupt family file
$2308 (8968)	Corrupt or missing .VAL file
$2309 (8969)	Foreign index file format
$2401 (9217)	Read failure
$2402 (9218)	Write failure
$2403 (9219)	Cannot access directory
$2404 (9220)	File Delete operation failed
$2405 (9221)	Cannot access file
$2406 (9222)	Access to table disabled because of previous error
$2501 (9473)	Insufficient memory for this operation
$2502 (9474)	Not enough file handles
$2503 (9475)	Insufficient disk space
$2504 (9476)	Temporary table resource limit
$2505 (9477)	Record size is too big for table
$2506 (9478)	Too many open cursors
$2507 (9479)	Table is full
$2508 (9480)	Too many sessions from this workstation
$2509 (9481)	Serial number limit (Paradox)
$250A (9482)	Some internal limit (see context)
$250B (9483)	Too many open tables

$250C (9484)	Too many cursors per table
$250D (9485)	Too many record locks on table
$250E (9486)	Too many clients
$250F (9487)	Too many indexes on table
$2510 (9488)	Too many sessions
$2511 (9489)	Too many open databases
$2512 (9490)	Too many passwords
$2513 (9491)	Too many active drivers
$2514 (9492)	Too many fields in Table Create
$2515 (9493)	Too many table locks
$2516 (9494)	Too many open BLOBs
$2517 (9495)	Lock file has grown too large
$2518 (9496)	Too many open queries
$251A (9498)	Too many BLOBs
$251B (9499)	File name is too long for a Paradox version 5.0 table
$251C (9500)	Row fetch limit exceeded
$251D (9501)	Long name not allowed for this tablelevel
$2601 (9729)	Key violation
$2602 (9730)	Minimum validity check failed
$2603 (9731)	Maximum validity check failed
$2604 (9732)	Field value required
$2605 (9733)	Master record missing
$2606 (9734)	Master has detail records. Cannot delete or modify
$2607 (9735)	Master table level is incorrect
$2608 (9736)	Field value out of lookup table range
$2609 (9737)	Lookup Table Open operation failed
$260A (9738)	Detail Table Open operation failed
$260B (9739)	Master Table Open operation failed
$260C (9740)	Field is blank
$260D (9741)	Link to master table already defined
$260E (9742)	Master table is open
$260F (9743)	Detail table(s) exist
$2610 (9744)	Master has detail records. Cannot empty it
$2611 (9745)	Self referencing referential integrity must be entered one at a time with no other changes to the table
$2612 (9746)	Detail table is open
$2613 (9747)	Cannot make this master a detail of another table if its details are not empty
$2614 (9748)	Referential integrity fields must be indexed

$2615 (9749)	A table linked by referential integrity requires password to open
$2616 (9750)	Field(s) linked to more than one master
$2617 (9751)	Expression validity check failed
$2701 (9985)	Number is out of range
$2702 (9986)	Invalid parameter
$2703 (9987)	Invalid file name
$2704 (9988)	File does not exist
$2705 (9989)	Invalid option
$2706 (9990)	Invalid handle to the function
$2707 (9991)	Unknown table type
$2708 (9992)	Cannot open file
$2709 (9993)	Cannot redefine primary key
$270A (9994)	Cannot change this RINTDesc
$270B (9995)	Foreign and primary key do not match
$270C (9996)	Invalid modify request
$270D (9997)	Index does not exist
$270E (9998)	Invalid offset into the BLOB
$270F (9999)	Invalid descriptor number
$2710 (10000)	Invalid field type
$2711 (10001)	Invalid field descriptor
$2712 (10002)	Invalid field transformation
$2713 (10003)	Invalid record structure
$2714 (10004)	Invalid descriptor
$2715 (10005)	Invalid array of index descriptors
$2716 (10006)	Invalid array of validity check descriptors
$2717 (10007)	Invalid array of referential integrity descriptors
$2718 (10008)	Invalid ordering of tables during restructure
$2719 (10009)	Name not unique in this context
$271A (10010)	Index name required
$271B (10011)	Invalid session handle
$271C (10012)	invalid restructure operation
$271D (10013)	Driver not known to system
$271E (10014)	Unknown database
$271F (10015)	Invalid password given
$2720 (10016)	No callback function
$2721 (10017)	Invalid callback buffer length
$2722 (10018)	Invalid directory

$2723 (10019)	Translate Error. Value out of bounds
$2724 (10020)	Cannot set cursor of one table to another
$2725 (10021)	Bookmarks do not match table
$2726 (10022)	Invalid index/tag name
$2727 (10023)	Invalid index descriptor
$2728 (10024)	Table does not exist
$2729 (10025)	Table has too many users
$272A (10026)	Cannot evaluate Key or Key does not pass filter condition
$272B (10027)	Index already exists
$272C (10028)	Index is open
$272D (10029)	Invalid BLOB length
$272E (10030)	Invalid BLOB handle in record buffer
$272F (10031)	Table is open
$2730 (10032)	Need to do (hard) restructure
$2731 (10033)	Invalid mode
$2732 (10034)	Cannot close index
$2733 (10035)	Index is being used to order table
$2734 (10036)	Unknown user name or password
$2735 (10037)	Multi-level cascade is not supported
$2736 (10038)	Invalid field name
$2737 (10039)	Invalid table name
$2738 (10040)	Invalid linked cursor expression
$2739 (10041)	Name is reserved
$273A (10042)	Invalid file extension
$273B (10043)	Invalid language Driver
$273C (10044)	Alias is not currently opened
$273D (10045)	Incompatible record structures
$273E (10046)	Name is reserved by DOS
$273F (10047)	Destination must be indexed
$2740 (10048)	Invalid index type
$2741 (10049)	Language Drivers of Table and Index do not match
$2742 (10050)	Filter handle is invalid
$2743 (10051)	Invalid Filter
$2744 (10052)	Invalid table create request
$2745 (10053)	Invalid table delete request
$2746 (10054)	Invalid index create request
$2747 (10055)	Invalid index delete request

$2748 (10056)	Invalid table specified
$274A (10058)	Invalid Time
$274B (10059)	Invalid Date
$274C (10060)	Invalid Datetime
$274D (10061)	Tables in different directories
$274E (10062)	Mismatch in the number of arguments
$274F (10063)	Function not found in service library
$2750 (10064)	Must use baseorder for this operation
$2751 (10065)	Invalid procedure name
$2752 (10066)	The field map is invalid
$2801 (10241)	Record locked by another user
$2802 (10242)	Unlock failed
$2803 (10243)	Table is busy
$2804 (10244)	Directory is busy
$2805 (10245)	File is locked
$2806 (10246)	Directory is locked
$2807 (10247)	Record already locked by this session
$2808 (10248)	Object not locked
$2809 (10249)	Lock time out
$280A (10250)	Key group is locked
$280B (10251)	Table lock was lost
$280C (10252)	Exclusive access was lost
$280D (10253)	Table cannot be opened for exclusive use
$280E (10254)	Conflicting record lock in this session
$280F (10255)	A deadlock was detected
$2810 (10256)	A user transaction is already in progress
$2811 (10257)	No user transaction is currently in progress
$2812 (10258)	Record lock failed
$2813 (10259)	Couldn't perform the edit because another user changed the record
$2814 (10260)	Couldn't perform the edit because another user deleted or moved the record
$2901 (10497)	Insufficient field rights for operation
$2902 (10498)	Insufficient table rights for operation. Password required
$2903 (10499)	Insufficient family rights for operation
$2904 (10500)	This directory is read only
$2905 (10501)	Database is read only
$2906 (10502)	Trying to modify read-only field
$2907 (10503)	Encrypted dBASE tables not supported

$2908 (10504)	Insufficient SQL rights for operation
$2A01 (10753)	Field is not a BLOB
$2A02 (10754)	BLOB already opened
$2A03 (10755)	BLOB not opened
$2A04 (10756)	Operation not applicable
$2A05 (10757)	Table is not indexed
$2A06 (10758)	Engine not initialized
$2A07 (10759)	Attempt to re-initialize Engine
$2A08 (10760)	Attempt to mix objects from different sessions
$2A09 (10761)	Paradox driver not active
$2A0A (10762)	Driver not loaded
$2A0B (10763)	Table is read only
$2A0C (10764)	No associated index
$2A0D (10765)	Table(s) open. Cannot perform this operation
$2A0E (10766)	Table does not support this operation
$2A0F (10767)	Index is read only
$2A10 (10768)	Table does not support this operation because it is not uniquely indexed
$2A11 (10769)	Operation must be performed on the current session
$2A12 (10770)	Invalid use of keyword
$2A13 (10771)	Connection is in use by another statement
$2A14 (10772)	Passthrough SQL connection must be shared
$2B01 (11009)	Invalid function number
$2B02 (11010)	File or directory does not exist
$2B03 (11011)	Path not found
$2B04 (11012)	Too many open files. You may need to increase MAXFILEHANDLE limit in IDAPI configuration
$2B05 (11013)	Permission denied
$2B06 (11014)	Bad file number
$2B07 (11015)	Memory blocks destroyed
$2B08 (11016)	Not enough memory
$2B09 (11017)	Invalid memory block address
$2B0A (11018)	Invalid environment
$2B0B (11019)	Invalid format
$2B0C (11020)	Invalid access code
$2B0D (11021)	Invalid data
$2B0F (11023)	Device does not exist
$2B10 (11024)	Attempt to remove current directory
$2B11 (11025)	Not same device

$2B12 (11026)	No more files
$2B13 (11027)	Invalid argument
$2B14 (11028)	Argument list is too long
$2B15 (11029)	Execution format error
$2B16 (11030)	Cross-device link
$2B21 (11041)	Math argument
$2B22 (11042)	Result is too large
$2B23 (11043)	File already exists
$2B27 (11047)	Unknown internal operating system error
$2B32 (11058)	Share violation
$2B33 (11059)	Lock violation
$2B34 (11060)	Critical DOS Error
$2B35 (11061)	Drive not ready
$2B64 (11108)	Not exact read/write
$2B65 (11109)	Operating system network error
$2B66 (11110)	Error from NOVELL file server
$2B67 (11111)	NOVELL server out of memory
$2B68 (11112)	Record already locked by this workstation
$2B69 (11113)	Record not locked
$2C01 (11265)	Network initialization failed
$2C02 (11266)	Network user limit exceeded
$2C03 (11267)	Wrong .NET file version
$2C04 (11268)	Cannot lock network file
$2C05 (11269)	Directory is not private
$2C06 (11270)	Directory is controlled by other .NET file
$2C07 (11271)	Unknown network error
$2C08 (11272)	Not initialized for accessing network files
$2C09 (11273)	SHARE not loaded. It is required to share local files
$2C0A (11274)	Not on a network. Not logged in or wrong network driver
$2C0B (11275)	Lost communication with SQL server
$2C0D (11277)	Cannot locate or connect to SQL server
$2C0E (11278)	Cannot locate or connect to network server
$2D01 (11521)	Optional parameter is required
$2D02 (11522)	Invalid optional parameter
$2E01 (11777)	obsolete
$2E02 (11778)	obsolete
$2E03 (11779)	Ambiguous use of ! (inclusion operator)

`$2E04 (11780)`	obsolete
`$2E05 (11781)`	obsolete
`$2E06 (11782)`	A SET operation cannot be included in its own grouping
`$2E07 (11783)`	Only numeric and date/time fields can be averaged
`$2E08 (11784)`	Invalid expression
`$2E09 (11785)`	Invalid OR expression
`$2E0A (11786)`	obsolete
`$2E0B (11787)`	bitmap
`$2E0C (11788)`	CALC expression cannot be used in INSERT, DELETE, CHANGETO and SET rows
`$2E0D (11789)`	Type error in CALC expression
`$2E0E (11790)`	CHANGETO can be used in only one query form at a time
`$2E0F (11791)`	Cannot modify CHANGED table
`$2E10 (11792)`	A field can contain only one CHANGETO expression
`$2E11 (11793)`	A field cannot contain more than one expression to be inserted
`$2E12 (11794)`	obsolete
`$2E13 (11795)`	CHANGETO must be followed by the new value for the field
`$2E14 (11796)`	Checkmark or CALC expressions cannot be used in FIND queries
`$2E15 (11797)`	Cannot perform operation on CHANGED table together with a CHANGETO query
`$2E16 (11798)`	chunk
`$2E17 (11799)`	More than 255 fields in ANSWER table
`$2E18 (11800)`	AS must be followed by the name for the field in the ANSWER table
`$2E19 (11801)`	DELETE can be used in only one query form at a time
`$2E1A (11802)`	Cannot perform operation on DELETED table together with a DELETE query
`$2E1B (11803)`	Cannot delete from the DELETED table
`$2E1C (11804)`	Example element is used in two fields with incompatible types or with a BLOB
`$2E1D (11805)`	Cannot use example elements in an OR expression
`$2E1E (11806)`	Expression in this field has the wrong type
`$2E1F (11807)`	Extra comma found
`$2E20 (11808)`	Extra OR found
`$2E21 (11809)`	One or more query rows do not contribute to the ANSWER
`$2E22 (11810)`	FIND can be used in only one query form at a time
`$2E23 (11811)`	FIND cannot be used with the ANSWER table
`$2E24 (11812)`	A row with GROUPBY must contain SET operations
`$2E25 (11813)`	GROUPBY can be used only in SET rows
`$2E26 (11814)`	Use only INSERT, DELETE, SET or FIND in leftmost column
`$2E27 (11815)`	Use only one INSERT, DELETE, SET or FIND per line

$2E28 (11816)	Syntax error in expression
$2E29 (11817)	INSERT can be used in only one query form at a time
$2E2A (11818)	Cannot perform operation on INSERTED table together with an INSERT query
$2E2B (11819)	INSERT, DELETE, CHANGETO and SET rows may not be checked
$2E2C (11820)	Field must contain an expression to insert (or be blank)
$2E2D (11821)	Cannot insert into the INSERTED table
$2E2E (11822)	Variable is an array and cannot be accessed
$2E2F (11823)	Label
$2E30 (11824)	Rows of example elements in CALC expression must be linked
$2E31 (11825)	Variable name is too long
$2E32 (11826)	Query may take a long time to process
$2E33 (11827)	Reserved word or one that can't be used as a variable name
$2E34 (11828)	Missing comma
$2E35 (11829)	Missing)
$2E36 (11830)	Missing right quote
$2E37 (11831)	Cannot specify duplicate column names
$2E38 (11832)	Query has no checked fields
$2E39 (11833)	Example element has no defining occurrence
$2E3A (11834)	No grouping is defined for SET operation
$2E3B (11835)	Query makes no sense
$2E3C (11836)	Cannot use patterns in this context
$2E3D (11837)	Date does not exist
$2E3E (11838)	Variable has not been assigned a value
$2E3F (11839)	Invalid use of example element in summary expression
$2E40 (11840)	Incomplete query statement. Query only contains a SET definition
$2E41 (11841)	Example element with ! makes no sense in expression
$2E42 (11842)	Example element cannot be used more than twice with a ! query
$2E43 (11843)	Row cannot contain expression
$2E44 (11844)	obsolete
$2E45 (11845)	obsolete
$2E46 (11846)	No permission to insert or delete records
$2E47 (11847)	No permission to modify field
$2E48 (11848)	Field not found in table
$2E49 (11849)	Expecting a column separator in table header
$2E4A (11850)	Expecting a column separator in table
$2E4B (11851)	Expecting column name in table
$2E4C (11852)	Expecting table name

$2E4D (11853)	Expecting consistent number of columns in all rows of table
$2E4E (11854)	Cannot open table
$2E4F (11855)	Field appears more than once in table
$2E50 (11856)	This DELETE, CHANGE or INSERT query has no ANSWER
$2E51 (11857)	Query is not prepared. Properties unknown
$2E52 (11858)	DELETE rows cannot contain quantifier expression
$2E53 (11859)	Invalid expression in INSERT row
$2E54 (11860)	Invalid expression in INSERT row
$2E55 (11861)	Invalid expression in SET definition
$2E56 (11862)	row use
$2E57 (11863)	SET keyword expected
$2E58 (11864)	Ambiguous use of example element
$2E59 (11865)	obsolete
$2E5A (11866)	obsolete
$2E5B (11867)	Only numeric fields can be summed
$2E5C (11868)	Table is write protected
$2E5D (11869)	Token not found
$2E5E (11870)	Cannot use example element with ! more than once in a single row
$2E5F (11871)	Type mismatch in expression
$2E60 (11872)	Query appears to ask two unrelated questions
$2E61 (11873)	Unused SET row
$2E62 (11874)	INSERT, DELETE, FIND, and SET can be used only in the leftmost column
$2E63 (11875)	CHANGETO cannot be used with INSERT, DELETE, SET or FIND
$2E64 (11876)	Expression must be followed by an example element defined in a SET
$2E65 (11877)	Lock failure
$2E66 (11878)	Expression is too long
$2E67 (11879)	Refresh exception during query
$2E68 (11880)	Query canceled
$2E69 (11881)	Unexpected Database Engine error
$2E6A (11882)	Not enough memory to finish operation
$2E6B (11883)	Unexpected exception
$2E6C (11884)	Feature not implemented yet in query
$2E6D (11885)	Query format is not supported
$2E6E (11886)	Query string is empty
$2E6F (11887)	Attempted to prepare an empty query
$2E70 (11888)	Buffer too small to contain query string
$2E71 (11889)	Query was not previously parsed or prepared

$2E72 (11890)	Function called with bad query handle
$2E73 (11891)	QBE syntax error
$2E74 (11892)	Query extended syntax field count error
$2E75 (11893)	Field name in sort or field clause not found
$2E76 (11894)	Table name in sort or field clause not found
$2E77 (11895)	Operation is not supported on BLOB fields
$2E78 (11896)	General BLOB error
$2E79 (11897)	Query must be restarted
$2E7A (11898)	Unknown answer table type
$2E96 (11926)	Blob cannot be used as grouping field
$2E97 (11927)	Query properties have not been fetched
$2E98 (11928)	Answer table is of unsuitable type
$2E99 (11929)	Answer table is not yet supported under server alias
$2E9A (11930)	Non-null blob field required. Can't insert records
$2E9B (11931)	Unique index required to perform changeto
$2E9C (11932)	Unique index required to delete records
$2E9D (11933)	Update of table on the server failed
$2E9E (11934)	Can't process this query remotely
$2E9F (11935)	Unexpected end of command
$2EA0 (11936)	Parameter not set in query string
$2EA1 (11937)	Query string is too long
$2EAA (11946)	No such table or correlation name
$2EAB (11947)	Expression has ambiguous data type
$2EAC (11948)	Field in order by must be in result set
$2EAD (11949)	General parsing error
$2EAE (11950)	Record or field constraint failed
$2EAF (11951)	When GROUP BY exists, every simple field in projectors must be in GROUP BY
$2EB0 (11952)	User defined function is not defined
$2EB1 (11953)	Unknown error from User defined function
$2EB2 (11954)	Single row subquery produced more than one row
$2EB3 (11955)	Expressions in group by are not supported
$2EB4 (11956)	Queries on text or ascii tables is not supported
$2EB5 (11957)	ANSI join keywords USING and NATURAL are not supported in this release
$2EB6 (11958)	SELECT DISTINCT may not be used with UNION unless UNION ALL is used
$2EB7 (11959)	GROUP BY is required when both aggregate and non-aggregate fields are used in result set
$2EB8 (11960)	INSERT and UPDATE operations are not supported on autoincrement field type
$2EB9 (11961)	UPDATE on Primary Key of a Master Table may modify more than one record

$2EBA (11962)	Queries on MS ACCESS tables are not supported by local query engines
$2EBB (11963)	Preparation of field-level constraint failed
$2EBC (11964)	Preparation of field default failed
$2EBD (11965)	Preparation of record-level constraint failed
$2EC4 (11972)	Constraint Failed. Expression:
$2F01 (12033)	Interface mismatch. Engine version different
$2F02 (12034)	Index is out of date
$2F03 (12035)	Older version (see context)
$2F04 (12036)	.VAL file is out of date
$2F05 (12037)	BLOB file version is too old
$2F06 (12038)	Query and Engine DLLs are mismatched
$2F07 (12039)	Server is incompatible version
$2F08 (12040)	Higher table level required
$3001 (12289)	Capability not supported
$3002 (12290)	Not implemented yet
$3003 (12291)	SQL replicas not supported
$3004 (12292)	Non-blob column in table required to perform operation
$3005 (12293)	Multiple connections not supported
$3006 (12294)	Full dBASE expressions not supported
$3101 (12545)	Invalid database alias specification
$3102 (12546)	Unknown database type
$3103 (12547)	Corrupt system configuration file
$3104 (12548)	Network type unknown
$3105 (12549)	Not on the network
$3106 (12550)	Invalid configuration parameter
$3201 (12801)	Object implicitly dropped
$3202 (12802)	Object may be truncated
$3203 (12803)	Object implicitly modified
$3204 (12804)	Should field constraints be checked?
$3205 (12805)	Validity check field modified
$3206 (12806)	Table level changed
$3207 (12807)	Copy linked tables?
$3209 (12809)	Object implicitly truncated
$320A (12810)	Validity check will not be enforced
$320B (12811)	Multiple records found, but only one was expected
$320C (12812)	Field will be trimmed, cannot put master records into PROBLEM table
$3301 (13057)	File already exists

$3302 (13058)	BLOB has been modified
$3303 (13059)	General SQL error
$3304 (13060)	Table already exists
$3305 (13061)	Paradox 1.0 tables are not supported
$3306 (13062)	Update aborted
$3401 (13313)	Different sort order
$3402 (13314)	Directory in use by earlier version of Paradox
$3403 (13315)	Needs Paradox 3.5-compatible language driver
$3501 (13569)	Data Dictionary is corrupt
$3502 (13570)	Data Dictionary Info Blob corrupted
$3503 (13571)	Data Dictionary Schema is corrupt
$3504 (13572)	Attribute Type exists
$3505 (13573)	Invalid Object Type
$3506 (13574)	Invalid Relation Type
$3507 (13575)	View already exists
$3508 (13576)	No such View exists
$3509 (13577)	Invalid Record Constraint
$350A (13578)	Object is in a Logical DB
$350B (13579)	Dictionary already exists
$350C (13580)	Dictionary does not exist
$350D (13581)	Dictionary database does not exist
$350E (13582)	Dictionary info is out of date - needs Refresh
$3510 (13584)	Invalid Dictionary Name
$3511 (13585)	Dependent Objects exist
$3512 (13586)	Too many Relationships for this Object Type
$3513 (13587)	Relationships to the Object exist
$3514 (13588)	Dictionary Exchange File is corrupt
$3515 (13589)	Dictionary Exchange File Version mismatch
$3516 (13590)	Dictionary Object Type Mismatch
$3517 (13591)	Object exists in Target Dictionary
$3518 (13592)	Cannot access Data Dictionary
$3519 (13593)	Cannot create Data Dictionary
$351A (13594)	Cannot open Database
$3E01 (15873)	Wrong driver name
$3E02 (15874)	Wrong system version
$3E03 (15875)	Wrong driver version
$3E04 (15876)	Wrong driver type

$3E05 (15877)	Cannot load driver
$3E06 (15878)	Cannot load language driver
$3E07 (15879)	Vendor initialization failed
$3E08 (15880)	Your application is not enabled for use with this driver
